OUR PROMISE

A different kind of kitchen *company*

Rena Interiors is an independent bespoke kitchen showroom on Manor Street, Falkirk. Every kitchen is drawn from scratch around your space, your family and your taste — then supplied and installed by a team who care about the finish.

- 01 BESPOKE DESIGN**
Your kitchen drawn from scratch. 3D renders, detailed plans and full specification before a penny is committed.
- 02 PREMIUM COMPONENTS**
We source exclusively from the UK's leading kitchen component distributors, giving you access to hundreds of door styles, finishes and hardware options.
- 03 MANAGED INSTALLATION**
Supply, delivery, fitting, electrics, plumbing, tiling — handled by our own skilled team. One call. No hand-offs.
- 04 LOCAL & INDEPENDENT**
Based in Falkirk, serving Central Scotland. See real kitchens in our Manor Street showroom.

"We believe a kitchen should be designed for the people who use it every day — not built around a catalogue."

Why we're *better* as independent

As an independent kitchen specialist we're not tied to inflated retail prices, sales targets or franchise overheads. Every kitchen is sourced direct from the UK's leading manufacturers and priced honestly — meaning superior quality at a fraction of high-street showroom cost.

01 BETTER QUALITY

We use the same premium components as the national showrooms — German-engineered cabinetry, hand-finished doors and branded appliances. We never substitute on materials to hit a price point.

02 BETTER PRICE

No franchise fees, no national advertising budgets, no inflated showroom margins. Direct trade pricing passed straight to you — typically 25–40% less than equivalent national brands.

03 DIRECT ACCESS

You speak to the designer, the fitter and the owner — not a salesperson on commission. Honest advice, transparent quotes and a single point of contact from concept to handover.

04 REAL ACCOUNTABILITY

As an independent business in Falkirk our reputation is everything. We stand behind every kitchen we install — long after the final invoice is paid.

“Premium kitchens at prices the national chains simply can't match — without ever compromising on quality.”

Worktops & surface choices

We work with leading suppliers to offer a comprehensive range of surfaces — from engineered quartz to solid oak, granite to compact laminate. Every material is specified to suit your kitchen's use, budget and aesthetic.

WORKTOP MATERIALS — AVAILABLE IN SHOWROOM

Engineered Quartz

Non-porous, scratch and heat resistant. Available in marble-effect, concrete and solid colour finishes etc

Natural Granite

Hand-selected slabs in polished or leathered finish. Each piece unique — distinctive natural movement and depth of colour.

Solid Timber

Solid oak, walnut and ash etc Hand-finished, oiled or lacquered — a warm and tactile counterpart to painted cabinetry.

Xtone

XTONE worktops are high-performance, large-format surfaces from Porcelanosa Grupo. They are primarily made of sintered porcelain or natural stone. These worktops are engineered to be highly durable, hygienic, and resistant to the typical wear and tear of a kitchen environment.

Laminate

High-pressure laminate (HPL) surfaces known for their durability, stain resistance, and heat protection. They offer a wide range of realistic wood, stone, and marble reproductions, often used in both residential kitchens and commercial spaces

Krypton

Next-generation solid surface material manufactured by the Porcelanosa Group. Composed of two-thirds natural minerals (alumina trihydrate) and a small percentage of high-resistance resins, it is designed to mimic the appearance and warm feel of natural stone while offering superior technical properties.

Worktop Options

- Engineered quartz
- Natural granite — polished and leathered
- Solid oak, walnut and ash timber
- Laminate
- Xtone -compact surface
- Krypton

Sinks & Taps

- Franke — undermount and Belfast sinks
- Blanco taps — brushed brass, chrome & black etc
- Quooker & Blanco boiling water taps
- Caple kitchen sinks
- Pull-out mixer taps with spring head
- 3-in-1 and 4-in-1 filter taps
- Prep bowls and colander accessories

Pullouts & smart storage

ENGINEERED FOR EVERYDAY USE

A great kitchen earns its keep with what's inside the cabinets. Every Rena kitchen is specified with German-engineered storage hardware — from full-height ladders and clever corner solutions to bespoke drawer inserts — making every centimetre work for the way you cook.

FULL-HEIGHT STORAGE

Tall Larder Pull-Out

Floor-to-ceiling pantry with up to seven height-adjustable trays. Soft-close runners on full-extension — everything in view, nothing lost at the back.

CORNER SOLUTIONS

Magic Corner / Le Mans

Blade-arm and pull-out swing systems that bring the contents of blind corner cabinets fully forward. No more reaching into the dark.

HIDDEN UTILITY

Waste & Recycling Pull-Out

Integrated multi-bin systems with separate compartments for waste, recycling and food caddy — all hidden behind a single cabinet door.

DRAWER ORGANISATION

Bespoke Drawer Inserts

Solid oak cutlery trays, knife blocks, spice organisers and pan dividers — all cut to fit your exact drawer dimensions.

FLEXIBLE LIVING

Pull-Out Breakfast Bar

A hidden timber worktop that extends from beneath the main run — instant prep space, casual seating or a desk that disappears when not needed.

QUALITY HARDWARE

Hettich Soft-Close Throughout

Hettich's "soft close" technology, primarily branded as the Silent System, uses integrated oil-filled piston dampers to catch doors and drawers as they close, pulling them shut gently and silently.
